Art Unit: 1633

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 7, 8 and 11-15, drawn to a method for ameliorating neuronal atrophy and loss accompanying normal aging in the mammalian brain by delivering a transgene encoding a growth factor to preselected sites, classified in class 514, subclass 44.
 - II. Claims 6, 9 and 10, drawn to a method for ameliorating neuronal atrophy and loss accompanying normal aging in the mammalian brain by delivering transgene-secreting donor cells to preselected sites, classified in class 424, subclass 93.2.
2. The inventions are distinct, each from the other because of the following reasons:

Groups I and II are patentably distinct from each other because they are drawn to materially distinct methods using compositions having different chemical structures, physical properties, and biological functions: transgene vs donor cells. They are different methods that differ at least in method steps, reagents and dosages used, schedules used, response variables, and criteria for success. They have different classifications and require separate search. Thus, groups I and II are patentably distinct from each other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1633

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CAR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CAR 1.48(b) and by the fee required under 37 CAR 1.17(I).
